

# Ryan Barczak

East Quogue, NY | [barczakryan@outlook.com](mailto:barczakryan@outlook.com) | (631)-599-0934 | [LinkedIn](#)

## EDUCATION

---

**Stonehill College** | Easton, MA

Anticipated Graduation: May 2027

Candidate for Bachelor of Science Degree in Computer Science

**Major:** Computer Science | **Minor:** Spanish | **GPA:** 3.13

**Awards:** Presidential Merit Scholarship, Dean's List

**Campus Engagement:** Member of Association for Computing Machinery

## PROJECTS

---

**Airline Reservation System Web App** | *Python, Django, PostgreSQL, Firebase, HTML/CSS/React.js (in progress)*

- Designing a full-stack airline booking platform with user authentication, flight scheduling, and ticket reservations
- Developing RESTful APIs with Django and PostgreSQL for secure, scalable backend functionality
- Integrating Firebase for real-time notifications and user session management
- Building responsive React.js front-end with flight search and booking flow

**Media Store System Web App** | *Python, Django, PostgreSQL, Firebase, HTML/CSS/React.js (in progress)*

- Building a full-stack web app simulating an online media rental and purchase system
- Develop Django models and utilize PostgreSQL to manage movies, games, and customer transactions
- Implement user authentication and role-based access for different account types
- Leverage Firebase for cloud-based storage and real-time inventory updates
- Design responsive UI with React.js for an elevated user experience
- Utilize AI to give media recommendations to users based on preferences and interests

## EXPERIENCE

---

**Undergraduate Assistant – Computer Science Department** | *Stonehill College*

August '25 – Present

- Collaborate alongside CS professors with redesigning homework and coding assignments
- Propose alternative assignment structures and strategies to combat the use of Generative AI on assignments
- Design updated homework problems that peak the interests of the student

**Customer Service and Food Service Roles** | *Dunkin Donuts, Mary's Pizza and Pasta*

January 2023 – Present

- Deliver high volume customer service, assisting customers with accuracy and efficiency
- Operate registers, manage transactions and ensure order accuracy
- Collaborate with team members in fast paced environments to ensure smooth operations
- Train new staff on various procedures and service standards, improving team productivity

## COMMUNITY ENGAGEMENT

---

**Wildlife Volunteer** | *Quogue Wildlife Refuge*

May 2022

- Partnered alongside a team of other volunteers on keeping the refuge clean and free of debris
- Supported conversation tasks and facility upkeep
- Assisted visitors with questions and promoted wildlife protection

## SKILLS & CERTIFICATIONS

---

**Computer:** Java, Python, R, Microsoft Office 365, Mac OS, Windows OS

**Relevant Coursework:** Data Structures, Statistics for Science, Computer Science I & II

**Tools and Technologies:** Git, Django, PostgreSQL, RESTful API

**Languages:** English (Native), Spanish (Conversational)
